

Due to budget issues based on flat revenues and increasing operating and construction costs, Howard County will not be performing winter maintenance on several Level A roads this winter. All Level A roads that will not see winter maintenance are signed accordingly. A map of these roads can be viewed and or printed at our website www.co.howard.ia.us/offices/engineer. The roads marked in red on the map are the roads affected. The roads are also listed below. Please note these roads will receive normal Level A maintenance in the spring.
